APP Plastiflex Plastic Filler

Two-component Polyester filler that features with high elasticity. Purposed for works related to filling in case of dents and irregularities, as well as plastic components repairs.

Features with very good elasticity and perfect adhesion to any plastic components, including bumpers, spoilers, mirrors, trimmings and mudguards. Thanks to creamy consistency it offers easy modeling on complicated surfaces. Features with easy application and finish.

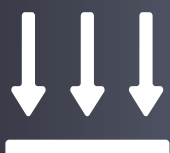

IMPROVED BENDING STRENGTH

contains combination of dyes of resins.

EASY APPLICATION AND FINISHING

shortens significantly delivery of work related to application.

PERFECT ADHESION

For typical plastic, metal, wood and concrete.

PRODUCT IN BLACK-GRAPHITE COLOUR
